Why choose Enercon for medical device manufacturing?

EXPERIENCE

WE KNOW COMPLIANCE

WE INNOVATE

We have extensive expertise in medical product design and manufacturing.

We have a wealth of experience in a range of healthcare areas, from early symptom diagnostics to therapeutic solutions for some of the most demanding medical challenges. Our application expertise includes medical devices and instrumentation, pharmaceutical drug delivery systems, as well as life sciences research. Our manufacturing software systems provide an industry-leading level of traceability and eDHR documentation.

Product Examples

CARDIOVASCULAR IMAGING

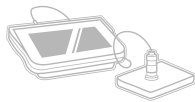

CELL ANALYZER

SURGICAL NAVIGATION

INFUSION PUMP

LAB EQUIPMENT

OXYGEN ASSIST MODULE

OXYGEN PRECISION FLOW

WEARABLE SENSOR

“The success of our product results from our listening to our customers, and Enercon in turn listening to us. Their experienced team worked closely with us, and were absolutely essential to getting our product to the market.”

— PRESIDENT, CEO, HEALTH INSURANCE COMPANY
